Vintage brochures for the Fiat 500

Brochures vintage de la Fiat 500

Antiguos folletos del Fiat 500

It all began in July 1899 when the Fabbrica Italiana Automobili Torino was founded as Italy's first automotive company. By 1900, 24 Fiat 3½ HP cars had rolled off the assembly line, built by a workforce of just 150 people. Soon Fiat would be producing everything from railway engines to farm tractors, but the company's central passion would always be the automobile. Throughout its 120-year history, Fiat has always played a visionary role in the continued evolution of what the company's founders called "democratic mobility."

Tout a commencé en juillet 1899, lors de la fondation de la Fabbrica Italiana Automobili Torino, la première entreprise automobile italienne. En 1900, 24 voitures Fiat 3½ HP avaient quitté la chaîne de montage, construites par un effectif de seulement 150 personnes. Fiat allait bientôt diversifier sa production, allant des locomotives aux tracteurs agricoles, mais la passion principale de l'entreprise restera toujours l'automobile. Tout au long de ses 120 ans d'histoire, Fiat a joué un rôle visionnaire dans l'évolution continue de ce que les fondateurs de l'entreprise ont appelé la « mobilité démocratique ».

FIAT 500

Launched in 1957, the iconic 500 (pronounced Cinquecento in Italian) was the company's response to the need for a car that was both economical and practical. The two door, four-seat sedan was an inexpensive, compact vehicle measuring only 9 ft. 9 in. in length and powered by a 479cc two-cylinder, rear-mounted air-cooled engine. The true ingenuity of the design lay in overcoming the technological challenge of reducing the size of each component, while still maintaining the 500's youthful, timeless spirit.

Lancée en 1957, l'emblématique 500 (prononcé Cinquecento en italien) était la réponse de l'entreprise à la nécessité d'offrir une voiture à la fois économique et pratique. La berline à deux portes et quatre places était un véhicule compact peu coûteux mesurant seulement 2,97 m de longueur et propulsé par un moteur à deux cylindres de 479 cm³ monté à l'arrière et refroidi à l'air. La véritable ingéniosité de la conception consistait à surmonter le défi technologique que posait la réduction de la taille de chaque composant, tout en conservant l'esprit jeune et intemporel de la 500.

Puesto a la venta en 1957, el inconfundible 500 (*cinquecento*, en italiano) fue la respuesta de la empresa a la creciente necesidad de un auto que fuera a la vez económico y práctico. El sedán, de dos puertas y cuatro asientos, era un vehículo económico y compacto que medía solo 2,97 m de longitud y venía equipado un motor trasero refrigerado por aire de 479 cc y dos cilindros. La verdad ra brillantez del diseño residía en que superaba el desafío tecnológico de reducir el tamaño de todos los componentes, manteniendo el espíritu juvenil e intemporal que caracteriza al 500.

LA DOLCE VITA

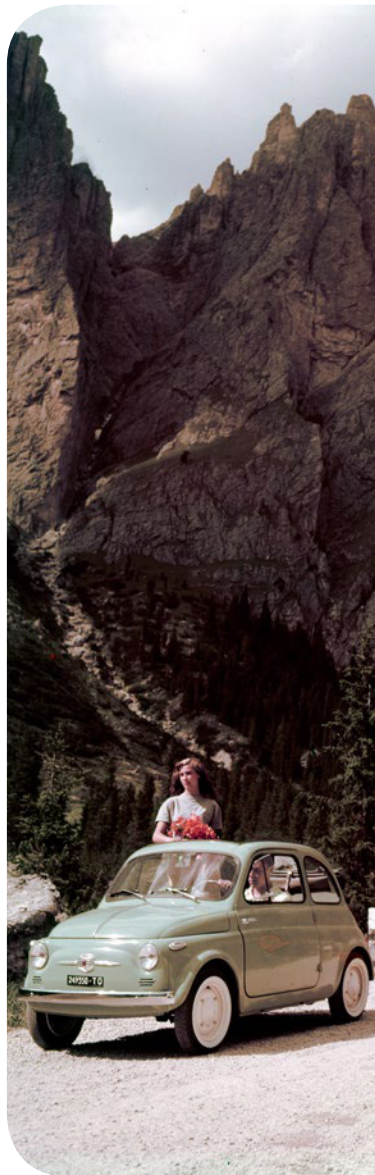

In many ways the launch of the Fiat 500 captured the spirit of the time, especially in a mid 1950s Italy that was enjoying an economic boom and a cultural renaissance. The 500 quickly became an icon for a generation that was determined to savor what became known as “the good life” (La Dolce Vita).

À bien des égards, le lancement de la Fiat 500 a capturé l'esprit de l'époque, en particulier dans l'Italie du milieu des années 1950, qui connaissait un boom économique et une renaissance culturelle. La 500 est rapidement devenue une icône pour une génération déterminée à profiter de ce qui est connu comme la « dolce vita ».

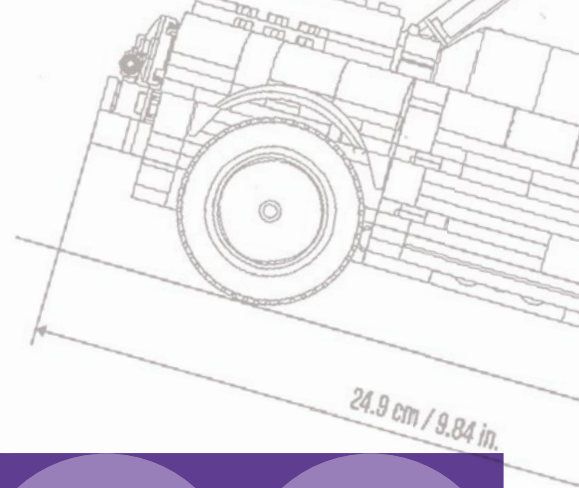

En muchos sentidos, el lanzamiento del Fiat 500 cautivó el espíritu de la época, particularmente en la Italia de mediados de la década de 1950, que experimentaba un auge económico y un renacimiento cultural. El 500 se convirtió rápidamente en un ícono para una generación decidida a saborear lo que se conoció como “la buena vida” (*la dolce vita*, en italiano).

The Challenge

Le défi

El desafío

Curvy

“Capturing the compact size and the curvy shapes were probably the biggest challenges I faced creating this model. It changed every day until we thought we had something as close as possible to what we wanted it to look like. I’m quite satisfied with the car overall, but the interior details, the back hatch and the doors are among my favorite parts. We took an early version of the model to Turin, Italy. It was great to get feedback directly from the designers at Fiat and see how passionate they are about the 500 and its legacy.”

Colorful

“Even though it was never an official color for the Fiat 500, we decided to go for this cool yellow tone for a few reasons, the main one being to get a vibrant color that suited the “dolce vita” feeling that the 500 is often associated with. On top of that, it’s a relatively uncommon LEGO® color as well, so we knew our own fans would appreciate getting more LEGO elements in this rare color.”

Les courbes

« Recréer la taille compacte et les courbes de la voiture ont probablement été les plus grands défis auxquels j’ai dû faire face pour créer ce modèle. Il a changé tous les jours jusqu’à ce que nous ayons obtenu quelque chose qui se rapprochait le plus possible de ce que nous voulions. Je suis satisfait de la voiture dans l’ensemble, mais les détails intérieurs, le hayon et les portes sont parmi mes éléments préférés. Nous avons emporté une première version du modèle à Turin, en Italie. Il était fascinant d’obtenir des commentaires directement des concepteurs de Fiat et de voir à quel point ils sont passionnés par la 500 et son héritage. »

La couleur

« Même si ce ne fut jamais une couleur officielle de la Fiat 500, nous avons décidé de choisir ce ton jaune pour plusieurs raisons, la principale étant d’obtenir une couleur vive qui reflète la “dolce vita”, sentiment auquel la 500 est souvent associée. C’est de plus une couleur LEGO® relativement rare. Nous savions donc que nos propres fans apprécieraient obtenir plus d’éléments LEGO dans cette couleur rare. »

Curvas

“Capturar el carácter compacto y las formas curvas fue, probablemente, el mayor desafío al que me enfrenté al crear este modelo. Cambió todos los días hasta que nos pareció que teníamos algo suficientemente similar a lo que queríamos que fuera. Estoy muy satisfecho con el auto en general, pero los detalles interiores, el portón trasero y las puertas son algunas de mis partes favoritas. Llevamos una versión preliminar del modelo a Turín (Italia). Fue fantástico conocer la opinión directa de los diseñadores de Fiat y ser testigos de la pasión que sienten por el 500 y su legado”.

Color

“Aunque nunca llegó a ser uno de los colores oficiales del Fiat 500, nos decidimos por este tono amarillo tan genial por varias razones, la principal de las cuales era que queríamos usar un color vistoso que se ajustara a la sensación de *dolce vita* a la que suele asociarse el 500. Además, es un color relativamente raro en LEGO® y sabíamos que los fans agradecerían la posibilidad de obtener más elementos LEGO con un aspecto tan poco común”.

CREATOR™

EXPERT

It's the smallest details that make the biggest difference in a LEGO® Creator Expert model, so this Fiat 500 F model is packed with authentic functions and features that aim to capture the spirit of the original iconic vehicle.

Ce sont les plus petits détails qui font la plus grande différence dans un modèle LEGO® Creator Expert. Ce modèle Fiat 500 F comporte de nombreuses fonctionnalités et caractéristiques authentiques qui visent à capturer l'esprit du véhicule emblématique.

Son los detalles más pequeños los que marcan las mayores diferencias en un modelo LEGO® Creator Expert, y esta versión del Fiat 500 F cuenta con numerosas funciones y características de enorme realismo que tratan de capturar el inconfundible espíritu del vehículo original.

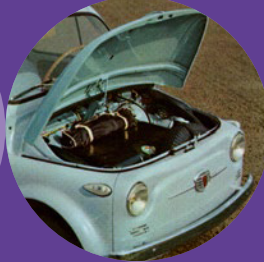

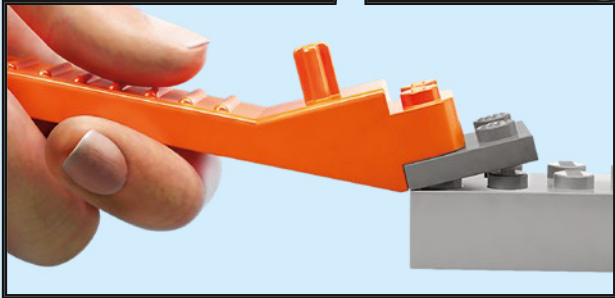

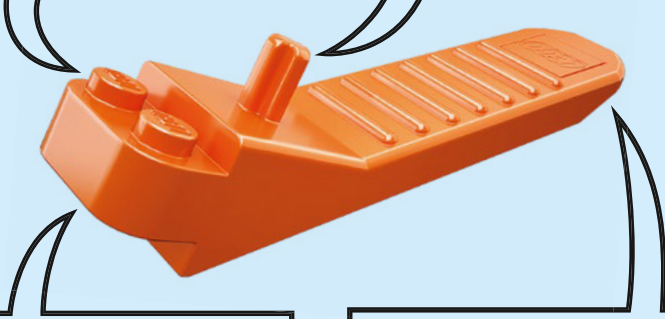

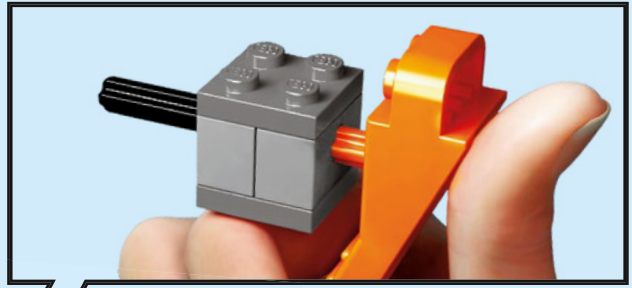

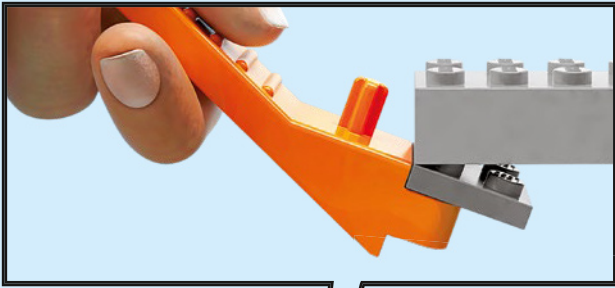

500

The original 500 series was produced from 1957 to 1975 and despite its small size proved an enormously popular vehicle. Fifty years after the first 500 was presented, Fiat launched an all-new, retro-styled 500 to take the icon into a new era.

La serie 500 original se fabricó entre 1957 y 1975. A pesar de su pequeño tamaño, resultó ser un vehículo enormemente popular. Cincuenta años después de la presentación del primer 500, Fiat lanzó un 500 totalmente renovado, aunque de estilo retro, para introducir al ícono en una nueva era.

The main diagram shows a grey Technic chassis with yellow beams. A red circle highlights a specific assembly point on the right side. A red arrow points from this circle to a circular inset showing a close-up of the assembly. A blue arrow in the inset points to a grey 1x Technic brick with hole being placed on top of a brown bush. A red circle highlights the assembly point where a grey 1x Technic axle with hole is being inserted into a hole in the chassis.
