姫路城

LE CHÂTEAU D'HIMEJI / LE CHÂTEAU DU HÉRON BLANC

🏰 Dominant majestueusement la ville japonaise d'Himeji, le superbe château d'Himeji est un joyau architectural inscrit au patrimoine mondial de l'UNESCO. Tout a commencé en 1333. Alors que le Japon est secoué par de nombreuses guerres civiles, une forteresse est érigée. Le château subira ensuite plusieurs transformations au cours des siècles. En 1600, une reconstruction majeure commence, aboutissant à la structure actuelle qui a été préservée dans son intégrité jusqu'à aujourd'hui, d'abord par les maîtres féodaux, puis par le gouvernement japonais. Son labyrinthe de passages, autrefois conçu pour confondre et piéger les ennemis, entraîne les visiteurs dans un voyage troublant. Échappant aux guerres, aux tremblements de terre et aux incendies, le château du Héron blanc continue de se dresser là, comme un vibrant hommage à la culture japonaise. Découvrez les détails complexes du donjon principal et l'histoire du château au fur et à mesure de la construction.

CHRIS MCVEIGH
Senior Designer LEGO®

HOMMAGE À UN MONUMENT EMBLÉMATIQUE

🍷 « 2023 marque le 30^e anniversaire de l'inscription du château d'Himeji sur la liste du patrimoine mondial de l'UNESCO, mais le mystère de l'architecture et de l'histoire du monument reste entier. Nous avons conçu le château de telle manière que le donjon principal soit l'élément central du modèle, en jouant sur les proportions et les dimensions. Si vous avez visité le château, vous reconnaîtrez peut-être certains détails intérieurs, et si vous ne l'avez jamais vu, nous espérons que ce modèle stimulera votre imagination et votre curiosité. »

Empruntez les chemins, passerelles et escaliers complexes du château.

UNE ILLUSION D'OPTIQUE

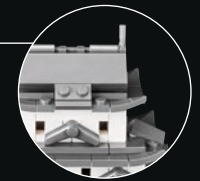

🌸 La toiture du château d'Himeji est composée de tuiles rectangulaires et semi-circulaires imbriquées de couleur noire. Plusieurs couches d'argile blanche viennent souligner les tuiles, ce qui apporte à la toiture un aspect contrasté, semblable à un maillage, lorsqu'on la regarde de près. Cependant, à distance, le maillage semble gris. Les tuiles de ce set arborent la couleur *Dark Stone Grey* (Gris pierre foncé), qui évoque l'aspect vieilli des tuiles.

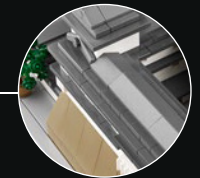

Jetez un œil à l'intérieur après avoir construit le modèle.

Chaque tour est construite différemment - même au sommet.

De loin, le maillage de tuiles noires et d'argile blanche donne l'impression que le toit est gris.

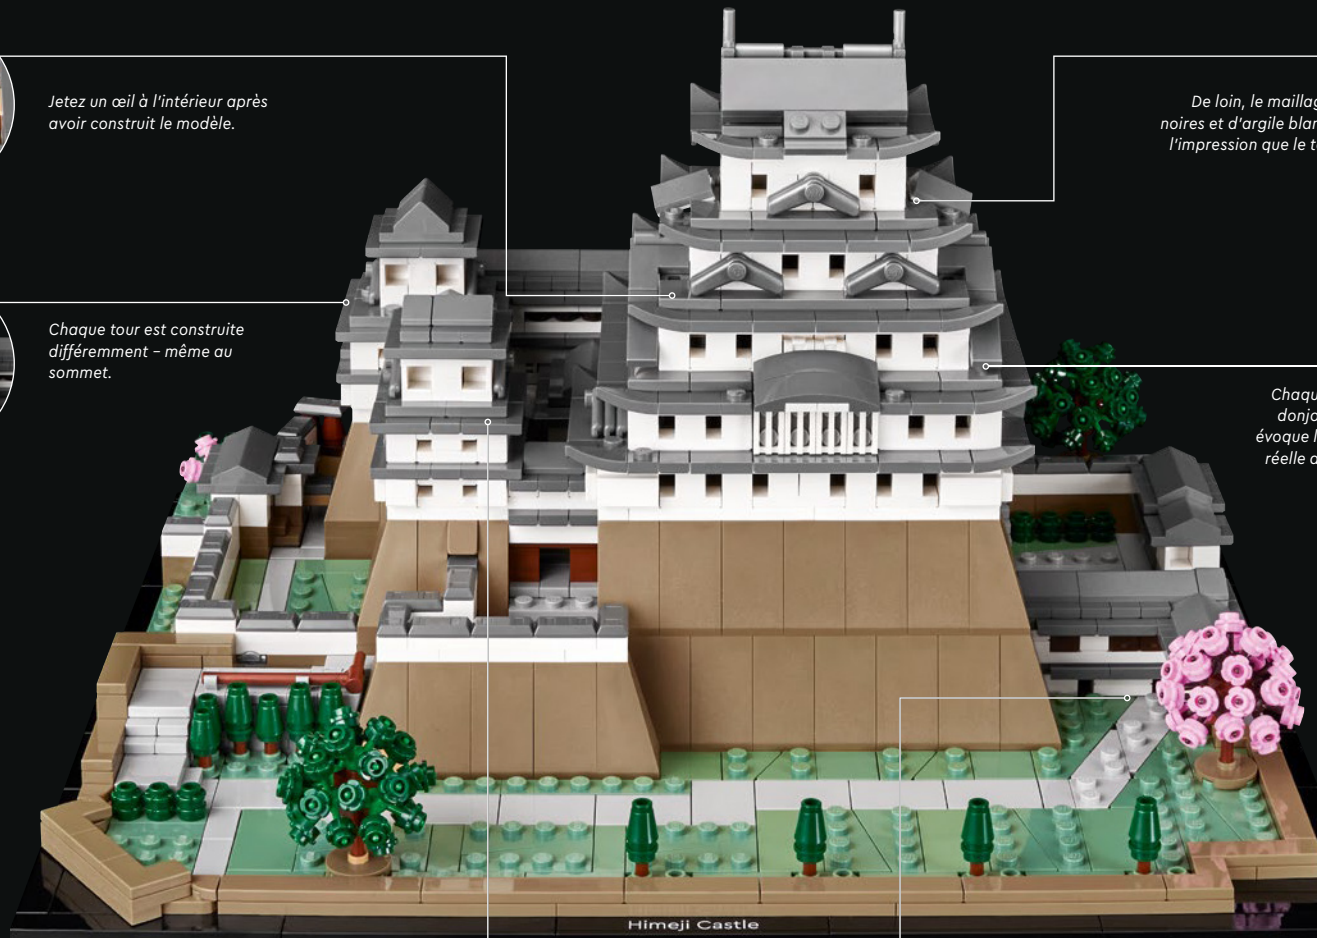

Chaque étage du donjon principal évoque la structure réelle du château.

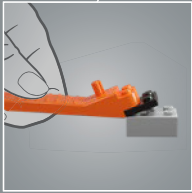

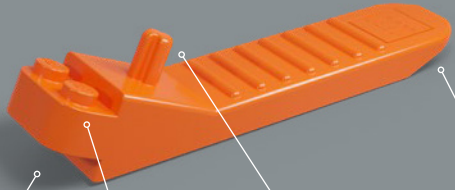

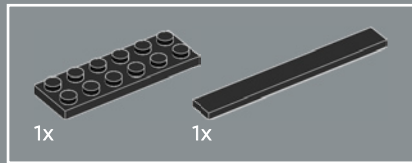

Les angles irréguliers sont prédominants dans tout le château et sur les murs.

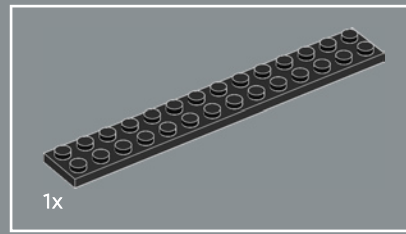

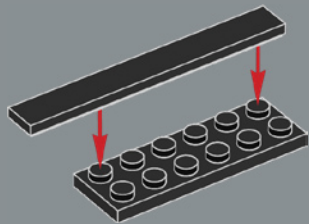

Ornez les cerisiers de fleurs roses ou de feuilles vertes.

Apportez la touche finale avec la tuile décorée du nom du monument en japonais ou en anglais. Vous pouvez la modifier à tout moment si vous changez d'avis.

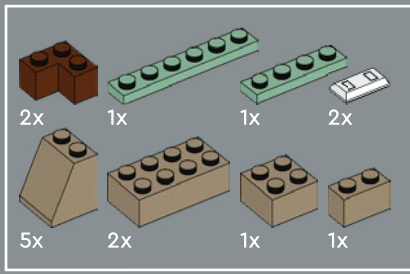

Depuis 1993, le château d'Himeji est inscrit au patrimoine mondial de l'UNESCO : c'est un hommage à la majesté mais aussi à l'architecture en bois de ce château japonais.
