

## UCCELLO DEL PARADISO

Che tu stia celebrando il tuo amore per l'orticoltura o semplicemente cercando una pianta da fiore colorata e che non richiede manutenzione, ci auguriamo che la nostra interpretazione dell'esotico Uccello del paradiso ti offra ore e ore di piacevole costruzione LEGO®.

## IL DESIGN TEAM

Chris McVeigh ha lasciato il suo nativo Canada per assumere il ruolo di designer LEGO® presso il quartier generale LEGO a Billund, in Danimarca, e questo set dell'Uccello del paradiso è il suo primo modello nella gamma LEGO Botanical. Chris è particolarmente orgoglioso dei fiori riposizionabili e del fatto che il modello ondeggi proprio come una vera pianta quando viene esposto a una leggera brezza.

## ***STRELITZIA REGINAE***

Questa splendida pianta da fiore è originaria del Sud Africa e può raggiungere i 2 metri di altezza. Produce un colorato fiore arancione simile a un pennacchio che ricorda il becco di un uccello, da cui proviene il suo nome non scientifico, Uccello del paradiso. La brillante bellezza del suo fiore tende a lasciare un'impressione indelebile su chiunque abbia il piacere di osservarlo durante un viaggio in un paese tropicale.
