THE ULTIMATE TREAT FOR COMIC BOOK FANS

More than 80 years after his debut, Batman™ is still *the* number one DC super hero. We love to weave lots of storytelling into our LEGO® Art models, and the acclaimed *BATMAN: HUSH* series (2002–2003) is not only a great story, but also a testament to how art and storytelling can merge into something truly special. That's why we're so excited to present this set based on original new artwork from award-winning *BATMAN: HUSH* artists, and legends in their own rights, Jim Lee, Publisher and Chief Creative Officer of DC, and Alex Sinclair, Colorist extraordinaire.

LE CADEAU PARFAIT POUR LES AMATEURS DE BANDES DESSINÉES

Plus de 80 ans après ses débuts, Batman™ demeure *le* plus grand superhéros de DC. Nous adorons tisser des récits dans nos modèles LEGO® Art, et la très acclamée série *BATMAN : SILENCE (BATMAN: HUSH)* (2002–2003) n'est pas seulement une excellente histoire, mais elle démontre que l'art et la narration peuvent fusionner pour créer quelque chose de vraiment spécial. C'est pourquoi nous sommes si emballés à l'idée de présenter cet ensemble basé sur de nouvelles illustrations originales des artistes primés et légendaires de la série *BATMAN : SILENCE*, soit Jim Lee, éditeur et chef de la création de DC, et Alex Sinclair, coloriste extraordinaire.

UN REGALO DE LUJO PARA FANS DE LOS CÓMICOS

Más de 80 años después de su debut, Batman™ sigue siendo el superhéroe DC por excelencia. Nos encanta tejer fascinantes tramas de hilos narrativos en torno a nuestros modelos LEGO® Art, y la aclamada serie *BATMAN: SILENCIO* (2002–2003) no solo es una gran historia, sino también un testimonio de cómo el arte y el relato pueden fundirse en una creación verdaderamente especial. Por eso estamos tan emocionados de poder presentarte este set basado en la nueva y original obra gráfica de los premiados artistas que hay detrás de *BATMAN: SILENCIO*, leyendas de pleno derecho: Jim Lee, editor y director creativo de DC, y el extraordinario colorista Alex Sinclair.

FROM SKETCH TO FINAL ARTWORK

DU CROQUIS À L'ŒUVRE FINALE

DESDE EL BOCETO HASTA EL ARTE FINAL

● Jim Lee's drawings with Alex Sinclair's beautiful coloring were so vibrant and fun to work with. We worked closely together to capture their signature strokes and create a total of five unique images – with only 16 colors! When using software to transform images into pixels, some areas will be lost in translation due to the number of pixels available. To me, the fun, artistic part of the design process is to create the perfect illusion of curves and depth. It's so satisfying to achieve the right contouring, focal points, contrasts, atmosphere, intimacy and drama in the picture.

KITT GRACE KOSSMAN, LEGO® Senior Designer

● Il a été très agréable de travailler avec les dessins dynamiques de Jim Lee et les couleurs vives d'Alex Sinclair. Nous avons travaillé en étroite collaboration pour bien rendre leurs traits caractéristiques et créer un total de cinq images uniques, le tout avec seulement 16 couleurs ! Lorsqu'on utilise un logiciel pour pixéliser des images, certains détails sont perdus dans la conversion en raison du nombre de pixels disponibles. Selon moi, la partie amusante et artistique du processus de conception est de trouver un moyen de créer l'illusion parfaite de courbes et de profondeur. Il est tellement satisfaisant de parvenir à bien saisir les contours, les points focaux, les contrastes, l'atmosphère, la familiarité et l'intensité de l'image.

KITT GRACE KOSSMAN, conceptrice LEGO® principale

● Los dibujos de Jim Lee con los maravillosos colores de Alex Sinclair eran tan vibrantes... Fue muy divertido y emocionante trabajar con ellos. Mantuvimos una estrecha colaboración para tratar de capturar sus trazos de autor y crear un total de cinco imágenes únicas... ¡con solo 16 colores! Cuando se usa software para transformar imágenes en píxeles, es irremediable que se pierdan ciertas áreas y matices, simplemente por el número de píxeles disponibles. Para mí, la parte artística y divertida del proceso de diseño reside en crear la ilusión perfecta de curvas y profundidad. No hay mayor satisfacción que lograr que se reflejen exactamente los contornos, los puntos focales, los contrastes, la atmósfera, la intimidad y la tensión en la imagen.
